PERFORMANCE

MINIMAL
MAINTENANCE

TECHNOLOGY

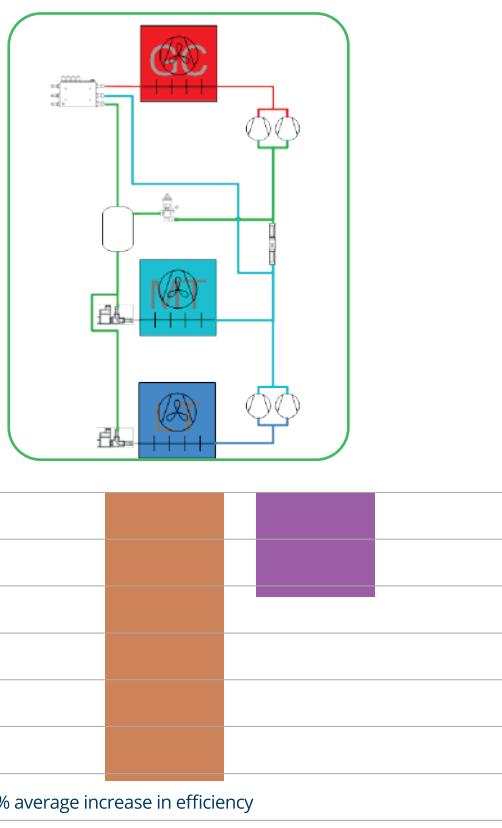

- Electronic oil level regulator Traxoil in each compressor
- Electronic controller
- Replaceable oil filter dryer
- Maintenance free oil separator with integrated oil reservoir
- Electronic minimum liquid level switch
- Liquid-Flash internal heat exchanger
- Discharge manifold connected to safety valves
- Full factory testing and parameters setting
- PS 120/80/60/60

OPTIONS

- Controller Carel, Wurm, RDM, Danfoss
- Frequency inverter MT / LT
- PS 120/80/80/80
- Heat Recovery
- Energy meter
- Low noise, enclosure + ultra low noise
- PNC frame with integrated gas cooler
- LP ejector
- Backup controller
- V3V by pass gas cooler
- Suction filter strainer LT/MT
- Liquid filter dryer

HIGH EFFICIENCY

LP EJECTOR

LSPM MOTOR

BITZER COMPRESSORS LSPM
(line start permanent magnet)

The line-start permanent magnet (LSPM) motor technology takes advantage of the motor efficiency and low heat input into the refrigerant, estimating 14% annual savings when compared with standard compressors.

DANFOSS MULTI EJECTOR LP (LOW PRESSURE)

In warm climates, the ejectors can lift all the gas from the evaporators into the receiver, which is at a higher suction pressure than the evaporator and this is lowering the system energy consumption. In cold ambient conditions, the LP ejector serves the same functions as a conventional high-pressure valve controlling the system to perform at optimum COP.

DIMENSIONAL DATA

| UNIT MODEL* | Q _O MT** | Q _O LT*** | Q _{GC} | I _{MAX} |
|-------------------------------------|---------------------|----------------------|-----------------|------------------|
